World-class radiation therapy is now closer to home...

## Welcome to the Yorba Linda Cancer Center

There is exciting news for cancer patients and cancer specialists in North Orange County: the new Yorba Linda Cancer Center, opening this summer, will offer advanced radiation therapy, outstanding patient care, and local convenience all backed by proven clinical experience.

The new cancer center will be an extension one of Orange County's premier radiation oncology practices, Radiation Oncology Medical Group of Southern California, and promises to give patients in the greater Yorba Linda area access to some of today's most advanced cancer treatments in a comfortable and healing environment.

## Where oncology expertise meets extensive treatment experience...

While the actual Yorba Linda Cancer Center itself will be a brand new state-of-the-art facility, our team of radiation oncology experts having been treating cancer patients in Orange County for more than 35 years.

Our three board-certified radiation oncologists, Dr. Robert Woodhouse, M.D., Dr. Donald C. Karon, M.D., and Dr. Vijay R. Kini, M.D., all have extensive experience treating a full range of cancer types and are recognized cancer care experts in Southern California.

## Unrivaled cancer treatment and exceptional patient care...

A commitment to patients and their care is at the heart of Yorba Linda Cancer Center's approach to cancer treatment.

Our experienced team of medical professionals work together to provide the highest level of care for our patients in a warm and relaxing environment. Our compassionate approach means that our patients have confidence that they are not alone in their fight against cancer.

Advanced cancer treatment technology without having to travel to a major university...

## Superior Technology

Yorba Linda Cancer Center features a brand new Varian Clinac iX linear accelerator enhanced with advanced repositioning imaging capabilities. In less technical terms, this means that Yorba Linda Cancer Center is fully equipped to provide precise, reliable and fast radiation treatments with an unparalleled level of safety and effectiveness.

In addition to external beam therapy, Yorba Linda Cancer Center will feature a suite of other advanced radiation therapies such as prostate seed implants, high-dose rate brachytherapy and other comprehensive treatment options.
